Courtiers compatibles avec Tradoshi

Liste vérifiable · relevé du 1er août 2026 · 2024 courtiers, 3423 serveurs réels

Règle de comptage, en une soustraction : 2 042 − 18 = 2 024. Moisson complète de l'annuaire officiel MetaQuotes le 1er août 2026 (balayage des 676 paires de lettres, 2 023 requêtes, 89 échecs) : **2 042 courtiers distincts**. Le fichier brut en annonçait 2 047, l'écart de 5 vient de doublons d'écriture (« Notesco (BVI) Limited » et « Notesco (BVI) LIMITED »). **18 courtiers n'offrent que des serveurs de démonstration** et sont écartés. Restent les **2 024** listés ici, qui ont tous au moins un serveur réel.

Un serveur est de démonstration si son nom le dit : demo, trial, test, contest, practice, competition. Tout le reste est un serveur réel. La règle inverse, « le nom contient Live », sous-compte massivement : beaucoup de courtiers nomment leur serveur de production « Broker-Server1 », sans jamais écrire Live.

Ce que ce document n'est pas. Ce n'est pas la liste embarquée dans l'application, qui ne contient que 377 marques pour l'autocomplétion du champ « serveur ». Si votre courtier manque à l'autocomplétion mais figure ici, saisissez le nom du serveur à la main : la connexion fonctionne.

CANAL HORS METATRADER	COURTIERS	MODE DE CONNEXION
cTrader	33	API directe, OAuth, lecture seule
TradeLocker	53	API directe, clé développeur
Exchanges crypto	9	API directe, clés en lecture seule
Interactive Brokers	1	API directe
NinjaTrader	1	API directe, synchronisation par push
IG	1	API REST, authentification par mot de passe
OANDA	1	API REST v20, jeton généré par le client
DXtrade	5	API directe, authentification par mot de passe (5 prop firms vérifiées)
Tradovate	1	API directe, OAuth, aucun mot de passe
Trading 212	1	API directe, portefeuille seulement (aucun trade)
Total en API directe du courtier	**105**	Trading 212 exclu : son API rend le portefeuille, aucun trade. FTMO et Alpha Capital exclus de DXtrade : accès fermé par le courtier

Document généré automatiquement à partir de la moisson du 1er août 2026. Certaines maisons apparaissent dans deux canaux (un courtier peut proposer MetaTrader et cTrader) : les totaux ne s'additionnent pas sans double comptage. L'annuaire MetaQuotes évolue en permanence ; en cas d'écart, écrivez à contact@tradoshi.com et la liste sera corrigée avec sa date. Tradoshi Ltd, société immatriculée en Angleterre et au Pays de Galles sous le n° 17347755.

Mention de marque

NinjaTrader® is a registered trademark of NinjaTrader Group, LLC. No NinjaTrader company has any affiliation with the owner, developer, or provider of the products or services described herein, or any

interest, ownership or otherwise, in any such product or service, or endorses, recommends or approves any such product or service.

Le trading comporte un risque de perte, pouvant aller jusqu'à la totalité du capital engagé. Tradoshi est un outil de journalisation et d'analyse : nous ne fournissons aucun conseil financier et ne garantissons aucun résultat. Le trading de contrats à terme et de forex comporte un risque substantiel et ne convient pas à tout investisseur : un investisseur peut perdre tout ou plus que son investissement initial, et seul du capital à risque devrait servir à trader. Les résultats de performance hypothétiques comportent de nombreuses limites intrinsèques : ils sont généralement établis avec le bénéfice du recul, n'exposent à aucun risque financier réel, et il n'est aucunement affirmé qu'un compte obtiendra des résultats semblables. Les performances passées ne préjugent pas nécessairement des résultats futurs. Avertissement complet sur les risques.
