Corretoras compatíveis com o Tradoshi

Lista verificável · levantamento de 1º de agosto de 2026 · 2.024 corretoras, 3.423 servidores reais

Regra de contagem, em uma subtração: 2.042 − 18 = 2.024. Coleta completa no diretório oficial da MetaQuotes em 1º de agosto de 2026 (varredura dos 676 pares de letras, 2.023 consultas, 89 falhas): **2.042 corretoras distintas**. O arquivo bruto indicava 2.047, e a diferença de 5 vem de duplicatas de grafia ("Notesco (BVI) Limited" e "Notesco (BVI) LIMITED"). **18 corretoras oferecem apenas servidores de demonstração** e foram excluídas. Restam as **2.024** listadas aqui, todas com pelo menos um servidor real.

Um servidor é de demonstração quando o nome dele diz isso: demo, trial, test, contest, practice, competition. Todo o resto é servidor real. A regra inversa, "o nome contém Live", conta muito menos do que deveria: muitas corretoras chamam o servidor de produção de "Broker-Server1", sem nunca escrever Live.

O que este documento não é. Não é a lista embutida no aplicativo, que contém só 377 marcas para o preenchimento automático do campo "servidor". Se a sua corretora não aparece no preenchimento automático mas está aqui, digite o nome do servidor à mão: a conexão funciona.

CANAL FORA DO METATRADER	CORRETORAS	MODO DE CONEXÃO
cTrader	33	API direta, OAuth, somente leitura
TradeLocker	53	API direta, chave de desenvolvedor
Exchanges de cripto	9	API direta, chaves somente leitura
Interactive Brokers	1	API direta
NinjaTrader	1	API direta, sincronização por push
IG	1	API REST, autenticação por senha
OANDA	1	API REST v20, token gerado pelo cliente
DXtrade	5	API direta, autenticação por senha (5 prop firms verificadas)
Tradovate	1	API direta, OAuth, sem senha
Match-Trader	1	API direta da plataforma, autenticação por e-mail e senha
Saxo Bank	1	API direta, com o aplicativo pessoal do cliente
Trading 212	1	API direta, somente a carteira (nenhum trade)
Total com API direta da corretora	**107**	Trading 212 excluída: a API dela devolve a carteira, nenhum trade. FTMO e Alpha Capital excluídas do DXtrade: acesso fechado pela corretora

Documento gerado automaticamente a partir da coleta de 1º de agosto de 2026. Algumas empresas aparecem em dois canais (uma corretora pode oferecer MetaTrader e cTrader): os totais não se somam sem dupla contagem. O diretório da MetaQuotes muda o tempo todo; se houver alguma diferença, escreva para contact@tradoshi.com e a lista será corrigida com a data. Tradoshi Ltd, empresa registrada na Inglaterra e no País de Gales sob o nº 17347755.

Aviso de marca registrada

NinjaTrader® is a registered trademark of NinjaTrader Group, LLC. No NinjaTrader company has any affiliation with the owner, developer, or provider of the products or services described herein, or any

interest, ownership or otherwise, in any such product or service, or endorses, recommends or approves any such product or service.

O trading envolve risco de perda, que pode chegar à totalidade do capital investido. O Tradoshi é uma ferramenta de registro e análise: não fornecemos nenhuma consultoria financeira e não garantimos nenhum resultado. O trading de contratos futuros e de forex envolve um risco substancial e não é adequado para todos os investidores: um investidor pode perder a totalidade ou mais do que o seu investimento inicial, e somente capital de risco deveria ser usado para operar. Os resultados de desempenho hipotéticos têm muitas limitações inerentes: geralmente são elaborados com o benefício da retrospectiva, não envolvem nenhum risco financeiro real, e não se afirma de forma alguma que uma conta vai obter resultados semelhantes. Desempenho passado não é necessariamente indicativo de resultados futuros. Aviso de risco completo.
